Nature always has the upper hand. You aren’t as fast as the animals and you can’t see as far and clear as they do. The animal smells you and hears you before you even know they’re there. You have to learn their ways. You have to outthink the animal you’re hunting by knowing where they come from and anticipate where they are going.

You can do everything right and still fail. Even the best hunter can end up empty-handed. But you’re the hunter. There’s something you can do. You can never give up.

Those who succeed, never turn back. You can keep going. You can create the right place and the right time. Because you know what every Tikka shooter knows: That you can trust your rifle. You can be confident it will handle the same forces that you can.

Whatever the situation or circumstance, all you have to do is concentrate on your shot. Your Tikka rifle is the ultimate tool for accuracy. Tikka is second to none.
2017 was a successful year for us at Tikka. The launch of the Tikka T3x Tac A1 was extremely well-received and in 2018, we’re broadening our selection with Tikka T1x, the only rimfire rifle you’ll ever need.

Our product family now includes the rimfire caliber option many have been asking for. Never settling for the ordinary, we’ve made sure that the brand new Tikka T1x is made with the same uncompromising craftsmanship that defines our famous centerfire rifles.

The T1x offers the same high-quality, unparalleled comfort and razor-sharp accuracy at the range or in rough terrain, letting you experience the best of both worlds. Our new rimfire rifle is also compatible with most T3x accessories, so you can effortlessly adapt to the situation at hand.

And as always, we keep working tirelessly to ensure that the Tikka brand offers best-in-class value for every sport shooter and hunter.

Get ready to enter the world of Tikka!
Experience the rimfire rifle that performs perfectly at the range and in the rough.

**SAFETY**
A two-stage safety that’s easy and quiet to operate and clearly indicates when the rifle is on safe or ready to fire.

**ACTION**
The action shares the same bedding surfaces and inlay footprint with the centerfire T3x rifles.

**SIGHT ATTACHMENT**

**BOLT**
Tikka T1x has a stainless steel bolt, which offers smooth and weather resistant movement.

**PISTOL GRIP**
Compatibility with most T3x accessories makes it easy to adapt the rifle to the preferences of any shooter.

**TRIGGER**
The mechanism shares the same high quality trigger unit offered in Tikka centerfire rifles for achieving maximum accuracy.

**MAGAZINE**
A 10 round magazine comes as standard for both .22 LR and 17 HMR calibers.

**STOCK**
Light and durable stock with carefully designed grip patterns for maximum comfort. From a vertical pistol grip to colored grips, the T1x stock can be fitted with most T3x accessories. The length of the stock can be increased with spacers. This allows the rifle to grow alongside the shooter.

**BARREL**
A cold hammer forged barrel with a crossover profile offers the benefits of a heavier barrel without much added weight.

T1x MULTI TASK RIMFIRE

Experience the most versatile rimfire rifle on the market.

Tikka T1x rimfire rifle has been designed from the ground up to handle a variety of shooting tasks. Its barrel has a cross-over profile, so you can enjoy the benefits and stability of a heavier barrel without noticeably increasing the weight.

The ample 10 round magazine and an exceptionally high quality trigger mechanism make each shot count whether you are at the range or exploring the great outdoors.

Caliber options: 22 LR, 17 HMR

The image shows a person walking through a snowy landscape with the T1x rimfire rifle.
THE ULTIMATE TOOL FOR ACCURACY

TIKKA T3x SERIES

ACTION
The action is designed for accuracy, reliability and easy servicing. Tikka rifles provide you with an extremely rigid action with a two-locking lug T3 bolt. The bolt features a spring-loaded plunger ejector and a removable bolt handle, with a 70° opening angle leaving plenty of room for handling the bolt. This is one of the smoothest actions on the market.

SAFETY
Tikka rifles provide you with a two-stage safety, blocking both the trigger and bolt handle. The safety is easy to operate and indicates when the rifle is ready for firing.

TRIGGER
A single-stage pull with a comfortable trigger feel. The steel trigger has vertical grooves for added grip, even when wearing gloves. It is easily adjustable through the magazine well from 1 to 2 kg (2 to 4 lbs).

MAGAZINE
The single-column detachable magazines are manufactured from strong fiberglass-reinforced synthetic material. The magazine holds 5, 5 or 6 rounds depending on the model and caliber. A flush release is installed at the front of the magazine to prevent accidental releases.

SIGHTS
Most rifles are delivered without open sights; they are optional. Integral rails are installed on top of the receiver for Tikka’s unique Optilock™ scope mounts. The receiver is also tapped for a Picatinny scope mount base.

BARREL
A cold hammer-forged Sako barrel of highest-grade steel is fastened to the receiver by a sturdy thread for safety and accuracy. Barrel is hand-crowned, as a precise and even muzzle crown is essential for accuracy.

STOCK
The T3x stock is designed to be light and durable. Carefully engineered use of walnut or fiberglass-reinforced synthetic materials guarantee solid performance. An optional recoil pad system with spacers provides adjustability in length of pull. Grip patterns are carefully designed for added comfort and a firm grip.

The Tikka T3x contains the same features that have made all Tikka rifles world-famous. When you have a Tikka rifle, you know it is second to none.
THE BEST OF EVOLUTION

Features and improvements — you wished, we listened.

IMPROVED GRIP
A grip that never slips. The Tikka synthetic stock has a new asymmetrical grip pattern and shape that has been specifically designed to give a solid grip in all conditions.

IMPROVED RAIL ATTACHMENT
Always keep the target in your sight. The T3x models have extra screw placements on top of the receiver so that you can robustly attach a Picatinny rail — even when using larger scopes.

RECOIL PAD
T3x models come with a new recoil pad technology that reduces the impact of recoil on the shooter. The new robust pad allows you to fully concentrate on the accuracy of your shots.

REDESIGNED EJECTION PORT
The new T3x receiver introduces a widened angular ejection port that makes it easier to feed one cartridge at a time.

IMPROVED BOLT SHROUD
Robustness and quality go hand in hand. Our T3x models come with a durable metallic bolt shroud that covers and shields the rear of the bolt body and the firing pin.

STOCK NOISE REDUCTION
Be as silent as the forest. T3x synthetic stocks now have a foam insert within the interior of the rear stock. This lowers the stock-generated noise and can help you keep your target in sight. Not available for models with an adjustable cheek piece.

MODULAR STOCK
T3x has a new modular synthetic stock that has interchangeable pistol grips, making it possible to modify the angle of the grip. This allows for multiple shooting positions. Additional grips are sold separately.

The T3x synthetic stock also has an additional attachment point which allows you to change the width of the stock’s fore-end.

Available as left-handed. Weight varies by caliber.
With a classic look and up-to-date performance, Tikka T3x Forest never fails to impress.

Caliber options: 204 Ruger | 222 Rem | 223 Rem | 22-250 Rem | 243 Win | 260 Rem | 7mm-08 Rem | 308 Win | 6.5 Creedmoor | 25-06 Rem | 6.5x55 SE | 270 Win | 7x64 | 30-06 Sprg | 8x57 IS | 9.3x62 | 7mm Rem Mag | 300 Win Mag | 338 Win Mag | 270 Win Short Mag | 300 Win Short Mag

This rifle is a great choice for hunters using large variable scopes that require higher mounts. Tikka T3x Forest satisfies the hunter who appreciates a classic design with a roll-over cheek piece that offers extra rest.
T3x LITE

When compromise is not an option.

T3x Lite combines high performance with lightweight ease. The Lite models are equipped with the T3x synthetic stock and all new modular features. These models come with the classic low-angled grip.

T3x LITE

Stainless

With the metal parts made of Sako’s high-grade stainless steel, this is a sturdy and long-lasting choice for all weather conditions.

T3x LITE

Adjustable

The perfect choice for hunters who want to be able to adjust the cheek piece and length of pull, especially in low-light conditions. The built-in option of being able to raise the cheek piece optimizes optics.

Tikka T3x Laminated Stainless is a weather-resistant, sharp-looking grey stock for the adventurous hunter. T3x Laminated Stainless is designed to withstand demanding weather conditions.

Weather can change in minutes, but the accuracy and performance of this rifle lasts for years. To achieve this, the Laminated Stainless model comes with a stainless steel banded action and hard-laminated stock. Compared to normal wood, the laminated wood cell structure does not expand during changing weather conditions. This will minimize the change in point of impact from where the rifle was zeroed.

T3x Camo Stainless

As a hunter you are a part of nature. With the T3x camo stainless you'll get there before the animals can see you. T3x camo stainless is for the hunter who wants to blend in to his surroundings.

Caliber options: 204 Ruger  |  222 Rem  |  223 Rem  |  22-250 Rem  |  243 Win  |  260 Rem  |  7mm-08 Rem  |  308 Win  |  6.5 Creedmoor  |  25-06 Rem  |  6.5x55 SE  |  270 Win  |  30-06 Sprg  |  9.3x62  |  7mm Rem Mag  |  300 Win Mag  |  338 Win Mag  |  270 Win Short Mag  |  300 Win Short Mag

The T3x Camo features a camo-coated (Realtree Xtra®) synthetic stock with all the other advanced T3x features. The barrel is made of non-reflective stainless steel.

T3x COMPACT

A rifle that fits like a glove.

The T3x compact is an adjustable rifle that adapts to its user. This rifle has a 12.5” length of pull, creating ideal ergonomics for shooters who struggle with long stocks. It is suitable for long term use, as you can adjust the length of pull according to your needs – making it especially useful for young shooters, who can adjust it as they grow.

The calibers chosen are milder in recoil, easy to control and therefore great for training as well as serious hunting.

Caliber options: 204 Ruger | 223 Rem | 22-250 Rem | 243 Win | 6.5 Creedmoor | 308 Win | 6.5 Creedmoor

Tikka T3x Compact comes with a 30 mm (approx. 1”) spacer and larger recoil pad to enable a longer length of pull.

T3x ARCTIC

The rifle that Canadian Rangers trust

When Canadian Rangers special forces were choosing their new rifle, the T3x Arctic beat all of its rivals. Canadian Rangers operate in some of the toughest conditions in the most remote areas of the world and they chose the T3x because it combines second to none weather resistance and performance.

Caliber options: 308 Win | 7x64 | 30-06 Sprg | 8x57 Is | 9.3x62 | 6.5 Creedmoor | 300 Win Mag | 300 Win Short Mag

Tikka T3x Arctic

comes with a 30 mm (approx. 1”) spacer and larger recoil pad to enable a longer length of pull.
T3x BATTUE

You can never be as fast as the animals, but with the right tool you’ll have the upper hand.

The short-barreled Tikka T3x Battue is designed specifically for fast target acquisition situations. The perfectly balanced and highly visible battue sights with TruGlo® optic fiber enable fast and easy aiming. With the addition of a rifle scope and Optilock™ scope mounts, the T3x Battue has the accuracy to reach game at longer distances.

The Tikka T3x Battue rifles are built for hunting situations where the game is running or in motion, enabling easy targeting over relatively short distances. The T3x Battue is the top choice for hunters who trek and hunt in heavy-cover territories.

The short-barreled Tikka T3x Battue Lite is designed specifically for fast target acquisition situations. The perfectly balanced and highly visible battue sights with TruGlo® optic fiber enable fast and easy aiming. With the addition of a rifle scope and Optilock™ scope mounts, the T3x Battue Lite has the accuracy to reach game at longer distances.

The fiber-glass-reinforced modular T3x stock makes the rifle more lightweight and adds the possibility to modify the rifle for different situations.
No snow or ice, no mud or rain, no gravel or dust – nothing can prevent you from successfully hitting the target. Your Tikka rifle has the same pinpoint accuracy and performance in all conditions, anywhere in the world.
T3x VARMINT
The classic T3x Varmint. Also available as left-handed.

A barrel and action made of stainless steel with a satin matte finish. Also available as left-handed.

T3x VARMINT STAINLESS
This stainless steel version has an adjustable cheek piece and Picatinny rail on top of the receiver for quick and effortless scope mounting.

T3x SUPER VARMINT
The stainless steel version has an adjustable cheek piece and Picatinny rail on top of the receiver for quick and effortless scope mounting.

Caliber options: 204 Ruger | 222 Rem | 223 Rem | 22-250 Rem | 6.5x55 SE | 308 Win | 6.5-300 Win Mag | 300 Win Short Mag | 7mm Rem Mag | 300 Win Mag | 7mm-08 Rem | 25-06 Rem | 30-06 Sprg | 9.3x62 | 7mm Rem Mag | 300 Win Mag | 338 Win Mag | 270 Win Short Mag | 300 Win Short Mag

T3x VARMINT
If you’re looking for a true stalking or long distance tool, look no further.

The stock has an extra wide fore-end for more solid support, and the swivel stud accommodates either a bipod or a sling. The ergonomically designed Varmint cheek piece provides a comfortable optimal head position.

All Varmint models come with the standard of a 5- or 6-round magazine.

T3x VARMINT
The T3x Varmint has consistent accuracy, be it at the range or on the plains. The free-floating barrel of the Tikka T3x Varmint effectively eliminates vibration, offering solid accuracy performance, round after round.

The synthetic T3x Varmint stock comes with a vertical pistol grip, better suited for prone shooting.

Caliber options: 204 Ruger | 222 Rem | 223 Rem | 22-250 Rem | 6.5x55 SE | 308 Win | 6.5-300 Win Mag | 300 Win Short Mag | 7mm Rem Mag | 300 Win Mag | 7mm-08 Rem | 25-06 Rem | 30-06 Sprg | 9.3x62 | 7mm Rem Mag | 300 Win Mag | 338 Win Mag | 270 Win Short Mag | 300 Win Short Mag

Weight varies by caliber

Barrel length

TIKKA T3x FRONT GRIP
Also compatible with T3 models.
The Optilock™ mounts keep the scope aligned and secured during all circumstances.

The scope is mounted with the revolutionary ball-bearing rings. Unlike conventional mounts, the Optilock’s polymer rings evenly distribute the clamping force along the shaft of the scope, protecting your optics. The limiter pin in the mount base and the limiter pin slot on the receiver enable fast, secure and accurate mounting of the scope.

Optilock bases and rings are machined from a solid block of steel creating a high strength and dimensionally accurate product.
